ACRYLITE®

ACRIFIX® CLEANERS

ACRIFIX® AC 1010 anti-static cleaner is formulated to cut static charge from sensitive surfaces. By dissolving and neutralizing static, this will allow applied areas to become dust free and stay clean longer.

ACRIFIX® TC 0030 is a clear thin-bodied liquid used to adjust the viscosity of the adhesive. It is also used to prepare/clean the area to be bonded, making it receptive to the adhesive which creates a stronger bond.
